

**ACHILLES RIVERBOATS**

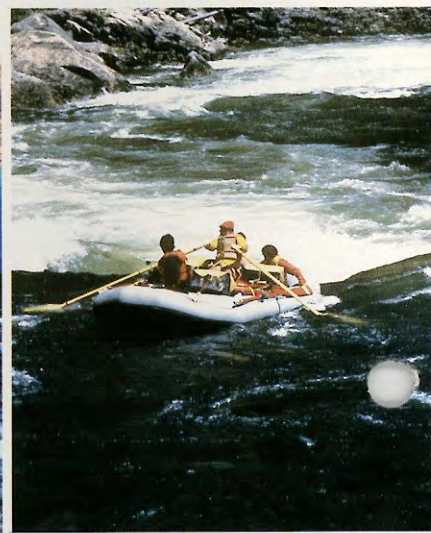

# ACHILLES RIVERBOATS

Achilles Riverboats meet the challenge of any river adventure you can imagine—whether you're a professional outfitter or a serious individual river-runner.

Achilles riverboats have met the test on rivers from America's Western giants to the treacherous Nile. They are the toughest in the world, the most abrasion-resistant, the most resistant to ultra-violet rays and ozone damage, and the most puncture-resistant.

Achilles has combined the world's most advanced inflatable craft technology with the expertise of top river runners everywhere to produce rafts that provide every edge on the river. Achilles river boats are constructed with extra-heavy duty nylon fabric impregnated with 80% Hypalon.

Super-strong floor patches add extra protection to potential prime abrasion areas of the floor. Our seams are the strongest possible, too—reinforced with special tape inside and out. Even our D-rings are specially designed, reinforced into heavy duty nylon-supported molded rubber. Achilles puts everything into their rafts in the factory so that you can get everything out of them on the river.

# RV SERIES MEETING THE PROFESSIONAL'S DEMANDS

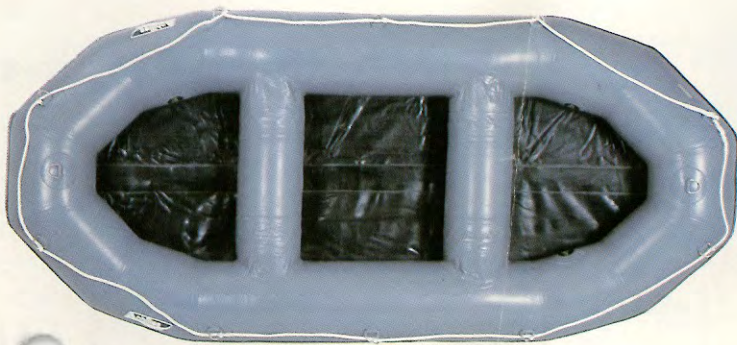

The rugged RV series offers professionals a line of rafts from 8'4" to 20' to meet any demand. RV riverboats come with floors which wrap up to a heavy rubbing strake on the side of the raft for maximum hull and buoyancy tube protection.

The RV line is designed for big water with extra large tube diameter and frame capacity. The RV-S models are designed for paddling and shallow water. All RV rafts have 1260 denier floors and 840 denier tubes.

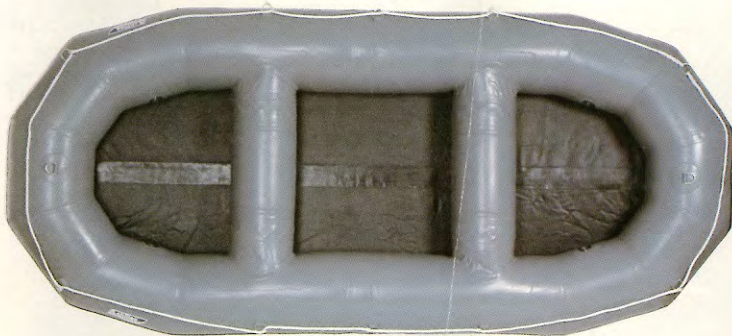

## RV-84

Length	8'4"
Beam	4'3"
Tube Diameter	13"
Thwart Diameter	10"
Weight	70 lbs.
No. Air Chambers	2 + 1 thwart
Stainless "D" Rings	5 - 2" rings

## RV-110

Length	11'
Beam	5'4"
Tube Diameter	15.5"
Thwart Diameter	11.8"
Weight	80 lbs.
No. Air Chambers	3 + 2 thwarts
Stainless "D" Rings	11 - 2" rings
Between Thwarts	2'5"

## RV-120

## RV-130

Length	12'	13'
Beam	5'10"	6'11"
Tube Diameter	17"	18"
Thwart Diameter	11.8"	13.7"
Weight	90 lbs.	110 lbs.
No. Air Chambers	3 + 2 thwarts	4 + 2 thwarts
Stainless "D" Rings	11 - 2" rings	11 - 2" rings
Between Thwarts	2'10"	2'11"

The RV-110 and RV-120 are available in optional one-thwart models. All RV models (except RV-84) are available in both red and grey.

RV-140

## RV-140    RV-140S

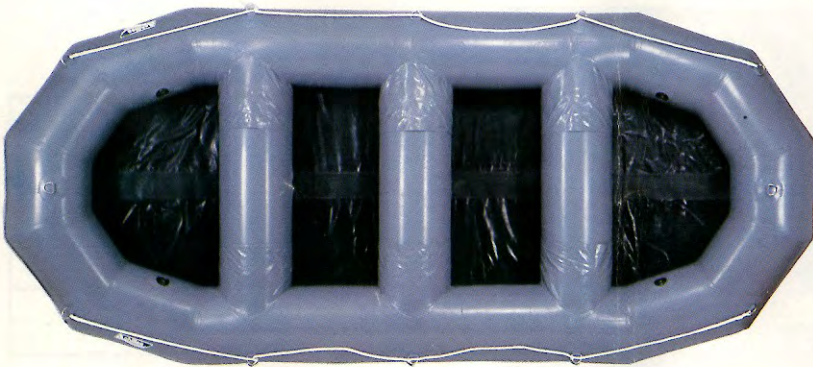

Length	14'	14'
Beam	6'8"	6'8"
Tube Diameter	20"	18"
Thwart Diameter	15.7"	15"
Weight	154.2 lbs.	132 lbs.
No. Air Chambers	4 + 2 or 3 thwarts	4 + 2 or 3 thwarts
Stainless "D" Rings	4 - 3" rings 7 - 2" rings	4 - 3" rings 7 - 2" rings
Between Thwarts	3'7" (2 thwarts) 1'5" (3 thwarts)	3'7" (2 thwarts) 1'5" (3 thwarts)

RV-160

## RV-160    RV-160S

Length	16'	16'
Beam	7'6"	7'6"
Tube Diameter	23"	20"
Thwart Diameter	16.5"	15.7"
Weight	167 lbs.	125 lbs.
No. Air Chambers	4 + 2 or 3 thwarts	4 + 2 or 3 thwarts
Stainless "D" Rings	4 - 3" rings 7 - 2" rings	4 - 3" rings 7 - 2" rings
Between Thwarts	3'9" (2 thwarts) 1'10" (3 thwarts)	3'9" (2 thwarts) 1'10" (3 thwarts)

RV-160S Three Thwart

The large RV boats are all available in standard two or three thwart models. Three thwarts enable the seating of more people. The RV-200 is also available in the three-thwart standard or four-thwart optional model. A 22' RV is available at outfitter request.

## RV-180

## RV-180S

## RV-200

Length	18'	18'
Beam	8'	8'
Tube Diameter	24"	21"
Thwart Diameter	17.5"	17.5"
Weight	231 lbs.	194 lbs.
No. Air Chambers	4 + 2 or 3 thwarts	4 + 2 or 3 thwarts
Stainless "D" Rings	4 - 3" rings 11 - 2" rings	4 - 3" rings 7 - 2" rings
Between Thwarts	4' (2 thwarts) 2' 2" (3 thwarts)	4'2" (2 thwarts) 2'4" (3 thwarts)

Length	20'
Beam	8'
Tube Diameter	24"
Thwart Diameter	17.5"
Weight	254 lbs.
No. Air Chambers	4 + 3 or 4 thwarts
Stainless "D" Rings	4 - 3" rings 11 - 2" rings

RV-180

# SVX & SV SERIES

The tough, lightweight SVX and SV series are designed primarily for professional use. From 11'0" to 15'6" models, these river rafts are constructed with the same tough 840 denier Hypalon, nylon, Neoprene material on the tubes and 1260 denier material on the floor as our RV series. The SVX series has a 75 degrees wrap floor, making it slightly heavier than the SV series. All other specifications are the same.

SV series

SVX series

## SV-126

## SV-140

Length	12'6"	14'
Beam	6'1"	6'8"
Tube Diameter	18"	19.6"
Thwart Diameter	11.8"	15.7"
Weight	98 lbs.	115 lbs.
No. Air Chambers	3 + 2 thwarts	4 + 2 thwarts
Stainless "D" Rings	12 - 2" rings	13 - 2" rings
Between Thwarts	3'3"	3'7"

## SVX-110

## SVX-126

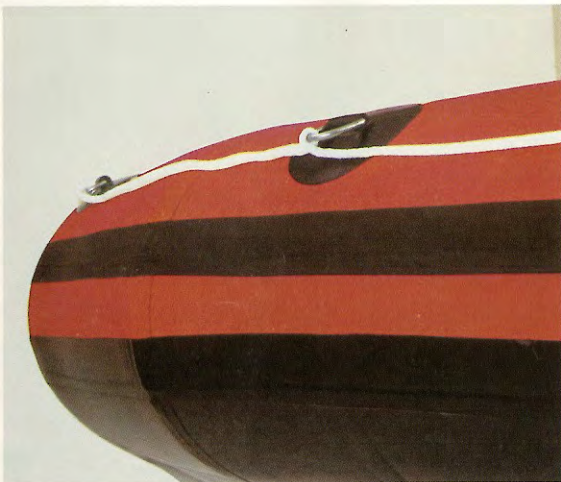

Length	11'	12'6"
Beam	5'2"	6'1"
Tube Diameter	15.3"	18"
Thwart Diameter	11.8"	11.8"
Weight	75 lbs.	93 lbs.
No. Air Chambers	3 + 2 thwarts	3 + 2 thwarts
Stainless "D" Rings	9-2" rings	12-2" rings
Between Thwarts	2'5"	3'3"

## SVX-140

## SVX-156

Length	14'	15'6"
Beam	6'8"	7'1"
Tube Diameter	19.6"	20.8"
Thwart Diameter	15.7"	16.5"
Weight	120 lbs.	160.7 lbs.
No. Air Chambers	4 + 2 thwarts	4 + 2 thwarts
Stainless "D" Rings	13-2" rings	13-2" rings
Between Thwarts	3'7"	3'5"

Every SVX Series raft has a 75° wrap-up floor for extra protection.

# CV SERIES

The CV series is a new addition to the Achilles line of quality rafts. Designed for the private river runner, CV rafts include many features that outfitters request in their rafts. The heavy-duty (840 denier) nylon floor wraps up 75 degrees all around the boat for extreme tube protection. The entire raft is coated with an 80% Hypalon solution for the toughest, most durable personal riverboat you can buy. There's a size to fit any need and handle any river.

Every CV Series raft has a 75° wrap-up floor for extra protection.
