

ACHILLES

92

Achilles

Achilles Inflatable Boats are found at work and play around the world. Their quality and dependability make them the first choice of marine researchers, rescue teams, commercial fishermen, professional divers and marine contractors everywhere. These professionals know they cannot find a better designed, better constructed or better performing inflatable. And the Achilles boats that must meet their high expectations for safety, durability and performance, are the same ones we make for recreational boaters.

At Achilles, every boat we build is designed to be the best in its class. From our smallest dinghy to our largest workboat, each boat is individually designed and equipped to fill a specific boating need. There are only two elements common to every Achilles boat. The first is our Hypalon® - reinforced material, because we are convinced — and our experience has shown — that this is the toughest, most durable inflatable boat fabric. The second is unsurpassed quality.

Achilles boats combine the best of both worlds. They deliver all the safety and convenience expected from an inflatable, plus a level of performance expected from rigid hull boats. So you can enjoy the best of boating — skiing, diving, sportboating, fishing — without the rest of boating — transporting, launching, storage, trailers.

Achilles boats have proven themselves over the years among people who really know inflatables. That is why so many marine professionals and serious boaters choose Achilles. But we pride ourselves in never resting on our laurels. While we accept and appreciate the accolades and the glowing reviews, we never stop working towards making our boats better and better. That is why you will find so many new models in our 1991 lineup, and so many subtle refinements to our existing models.

Continually improving the best — that is the Achilles commitment to boaters everywhere.

At work for private industry

Assisting marine research

In the Sea of Cortez with Navtec Expeditions

Working on the IOGP racing circuit

Sportboating on the Colorado River

Racing in Europe

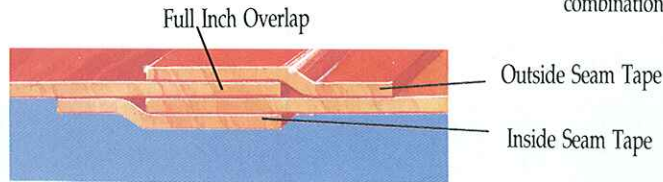

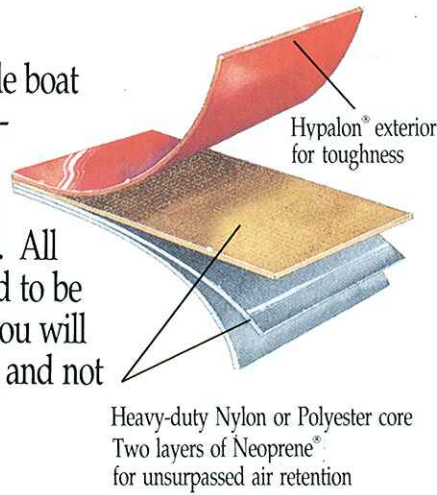

Close encounter with a gray whale

Fighting the rapids

"You will not find a better inflatable boat than Achilles." We make this statement with confidence because the proof is in the unsurpassed design and features of every Achilles boat. All our boats are individually designed to be the best they can be. This means you will find custom features on every one, and not standard production line features that may be fine for some, but not ideal for others. You will also find *more* standard features on Achilles boats. Add in the best inflatable boat fabric in the industry, and you'll see why we are so confident that the quality of our boats is the finest in the industry. This is why we urge comparisons with other inflatable boats, and why we back all our boats with a strong warranty commitment.

THE STORY BEHIND THE SEAMS

Seam construction on an inflatable is as important as fabric. If a seam fails, having the best fabric doesn't help. So Achilles takes the most meticulous steps in the industry to insure the strongest seam construction, and backs them up with a full five-year warranty. We overlap all our seams a full inch and reinforce them with tape inside and out to insure safety. Some manufacturers join seams end-to-end with no overlap, and others use only outside seam tape.

VALVES THAT CHECK THEMSELVES The valves on all Achilles boats are semi-recessed and double-capped for safety. These one-way "check" valves allow for fast inflation while making it impossible for air to escape. Completely non-corrosive, they also make deflation a breeze when the valves are removed.

MORE IN THE FLOOR

Achilles boats offer more floor options since the requirements of every boat are different. Aluminum, wood, roll-up, inflatable, fiberglass rigid hull inflatable boat floors should fit the major functions the boat is designed to perform. That is why Achilles offers more floor options. We designed our advanced, self-locking floor systems to go in quickly and easily, and to provide a sturdy, rigid floor for comfortable boating. Our aluminum and wood floorboards lock into place and are secured with stringers for extra safety. Our roll-up and inflatable floor models offer the ultimate in convenience and portability. Our rigid hull boats provide unsurpassed maneuverability. Like every Achilles design feature, our floors are engineered to make each boat the best it can be.

FABRIC PROVEN TO LAST AND LAST
The fabric is the single most important factor in an inflatable boat and no one makes a tougher, more durable fabric than Achilles. All Achilles boats are made with Hypalon®-reinforced fabric. Hypalon®, developed by DuPont, has proven to be the single best agent for resisting damage to inflatable boats from abrasions, oil gasoline, warm salt water or ultraviolet rays. We use Hypalon® over a tough, heavy-duty nylon or polyester core for maximum strength and toughness. The interior of our fabric is coated with two layers of Neoprene to insure the highest level of air retention in the industry. The result is a multi-layered fabric that not only holds air longer, but also lasts longer. Achilles fabric has proven itself over the years under all types of conditions around the world. Although new fabric formulations are constantly being introduced in the inflatable boat industry, none have proven themselves to be as reliable as the Achilles Hypalon/Neoprene combination has over time.

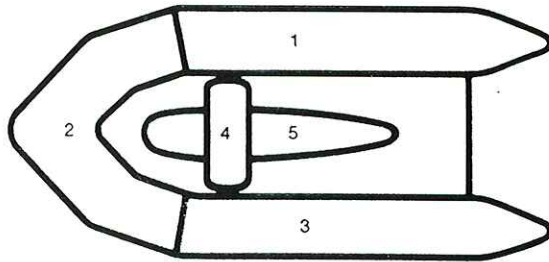

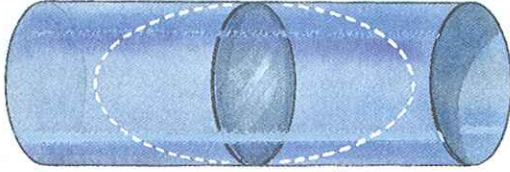

- **FULL-LENGTH RUBBING STRAKES** are found on virtually all Achilles boats to provide extra protection in the event of collisions with docks, rock, pilings, other boats, etc.
- **REMOVABLE BOW SPRAYDODGERS** come standard with most Achilles boats.
- **FOOT PUMPS AND MAINTENANCE KITS** are standard with every Achilles boat.
- **MULTI-PURPOSE "D" RINGS, CARRY HANDLES, TOWING RINGS, SAFETY LINES, PAINTER LINES, SEATS**—the list of extra features for Achilles boats goes on and on. No other inflatable boats offer more standard features.

FIVE YEAR WARRANTY ON FABRIC AND SEAMS

We back our claim to having the best fabric and construction with a strong warranty commitment.

BAFFLES THAT HANDLE THE PRESSURE

The Achilles bulkhead baffle system keeps air chambers completely sealed from one another for safety. It also features a flexible cone design which works to equalize the pressure between compartments, so air pressure is as consistent as possible all around the boat.

MORE AIR CHAMBERS MEAN MORE SAFETY

In direct comparisons with competing models, you'll see that Achilles boats usually have at least one more air chamber. Not only is this an obvious safety feature, it also increases buoyancy and loading capacity of Achilles boats. Just another extra step Achilles takes to produce the world's best inflatables.

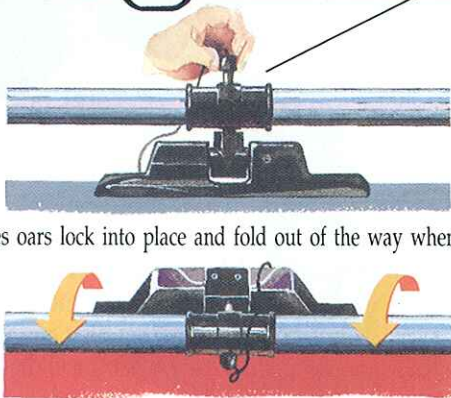

LOOK OVER THE TRANSOM

Achilles has more transom designs than other manufacturers, each developed to best complement individual boat models. All of our fixed transom designs—whether fiberglass or wood—have an aluminum motorplate to provide extra protection from damage from engines and clamps, and to also prevent engine "ride-up". Our advanced method of joining transoms and tubes insures the best possible adhesion.

DESIGNS THAT INSURE STABILITY AND PERFORMANCE

Every Achilles boat is custom-designed through our advanced CAD (Computer-aided-Design) system to insure the optimum ratios among length, beam, tube diameter and load capacity. This means Achilles boats are produced in the ideal proportion to insure the best stability and performance. Every model, even within the same series, is different. This is not the case with some manufacturers who produce standard tube diameters and features for a number of different models.

Achilles oars lock into place and fold out of the way when not in use.

OUR OAR SYSTEM IS THE SOLUTION

Usually all Achilles boats come equipped with the most advanced oar system in the industry. One we invented and perfected. This fold-down, locking system keeps oars securely alongside the buoyancy tubes when not in use. This keeps them from flopping around when the boat is moving and out-of-the-way during boarding. Our two-piece aluminum oars lock in place for rowing which eliminates the possibility of losing an oar overboard. Most of our boats also come fully-equipped with the ideal seat or seats to make rowing any Achilles as easy as possible.

SPORT GRAND (SG) SERIES

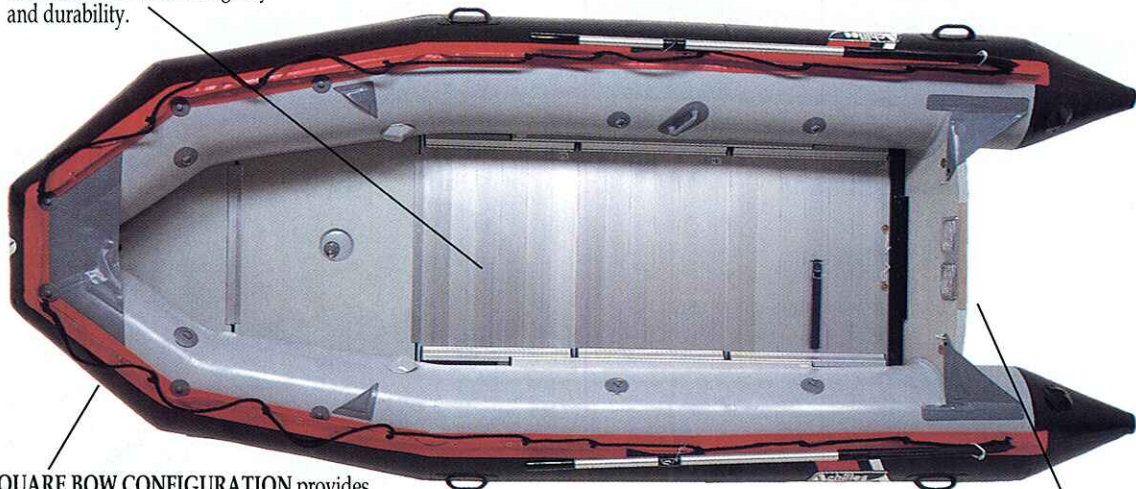

These "top-of-the-line" models continue to set the standard for inflatable sportboats. Built for high performance with deep "V" trigon air keel hulls. Achilles SG boats offer a host of features designed to make any sportboating activity safe and comfortable as well as exciting. A roomy, square bow configuration provides room for extra gear, and an aluminum floor system delivers superior traction, rigidity and durability. So Achilles SG sportboats bring performance and practicality together for better water skiing, diving, fishing or all-around sportboating pleasure!

ALUMINUM FLOOR-BOARDS AND STRINGER SYSTEM delivers the best combination of traction, rigidity and durability.

TRIGON AIR KEEL provides a deeper "V" inflatable hull for better handling.

SQUARE BOW CONFIGURATION provides more interior space.

FULL-LENGTH "TEARDROP" RUBBING STRAKE protects the boat from scrapes and abrasions.

FIBERGLASS TRANSOM WITH PROTECTIVE MOTOR CLAMP PLATE for ultimate transom strength and durability.

SG-124

SG-140

SG Series Standard features include: roomy square bow configuration; trigon air keel; aluminum self-locking floorboards with aluminum stringer system; fiberglass transom with protective motor clamp plate; fuel tank tie-downs; self-bailer valve; full-length teardrop rubbing strake; fold-down locking oar system with two-piece break-down aluminum oars (except SG-156 & SG-176); bow carry handle; lift & carry handles; towing bridle; high-speed helmsman grip; life lines; full-length splash guard; snap-down transom splash guard; removable bow spraydodger; bow holdall fitting points; bow deck fitting points; cushion seat fitting points; large, non-corrosive check valves; large, high-volume foot pump; double carry bag system; deluxe maintenance kit.

SPORT DELUXE (SD) SERIES

DEEP "V" TRIGON AIR KEEL
for superior handling.

TOWING BRIDLE WITH
TWO "D" RINGS
for easy towing.

NON-SKID FLOOR-
BOARDS with ALUMI-
NUM STRINGERS for
extra traction and safety.

FIBERGLASS TRAN-
SOM with MOTOR
PLATE provides lasting
strength and protection
from engine damage.

FULL-LENGTH
SPLASH GUARD for
a drier ride.

FUEL TANK TIE-
DOWNS secure tanks
in place.

Our SD sportboat models are so popular because they are versatile enough to handle virtually any boating need. Their roominess and stability make them a favorite with divers and fishermen while their performance and maneuverability make them popular with recreational boaters of all types.

No comparable inflatable offers a more complete range of standard features.

So, if you're looking for an inflatable that does everything, you need the one that has everything - the Achilles SD Sportboat.

HELMSMANS GRIP
for extra safety.

SD-156

REMOVABLE BOW
SPRAYDODGER
keeps gear dry.

SD Series Standard features include: trigon air keel; non-skid, self-locking wood floorboards with aluminum stringer system; fiberglass transom with protective motor clamp plate; fuel tank tie-downs; self-bailer valve; full-length rubbing strake; fold-down locking oar system with two-piece breakdown aluminum oars & oar holders (except 156); bow carry handle; lift & carry handles;

towing bridle; high-speed helmsman grip; life lines; full-length splash guard; snap-down transom splash guard; removable bow spraydodger; bow holdall fitting points; bow deck fitting points; cushion seat fitting points; large, non-corrosive check valves; high-volume foot pump; double-carry bag system; deluxe maintenance kit.

SPORT ECONOMY (SE) SERIES

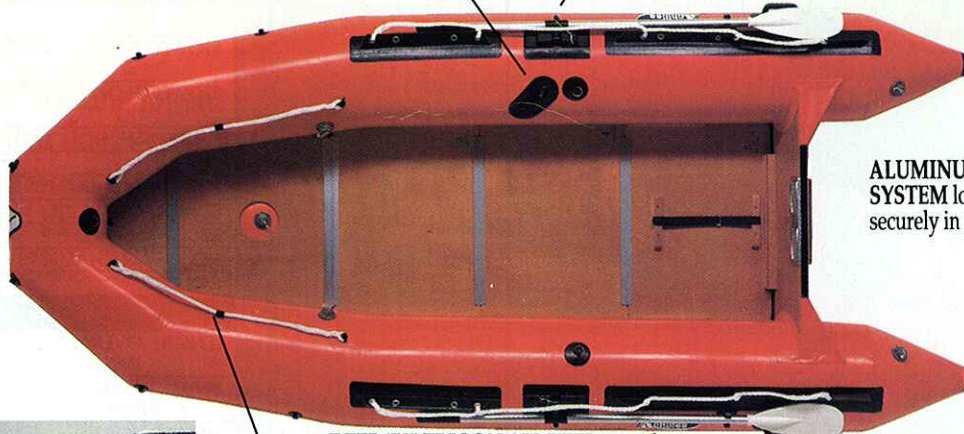

Our SE boats are built to be the most convenient, full-size inflatable sportboats on the market. Their square bow configuration allows for more interior space without increasing overall length, an important advantage for a tender or family fun boat. They are light-weight for maximum portability while still providing the unsurpassed strength provided by our Hypalon®-reinforced polyester fabric. With two carry bags, one person can easily take these boats anywhere, but once inflated each SE boat carries over four people and handles loads over 1,000 pounds. On the water, the performance is still vintage Achilles with superb sportboat handling and maneuverability.

Either as large tender or all-around fun boat, Achilles SE Sportboats are a great value.

HIGH-SPEED HELSMAN GRIP

FOLD-DOWN LOCKING OAR SYSTEM with **TWO-PIECE ALUMINUM OARS** keeps oars securely fastened and out of the way when not in use.

ALUMINUM STRINGER SYSTEM locks wood floorboards securely in place.

DEEP "V" TRIGON AIR KEEL provides superior handling.

INTERIOR SAFETY LINE extra passenger safety.

TWO-CARRY BAG SYSTEM allows for easier carrying.

MADE IN THE USA

HARD BOTTOM (HB) SERIES

ROOMY, SQUARE BOW DESIGN
for more interior space.

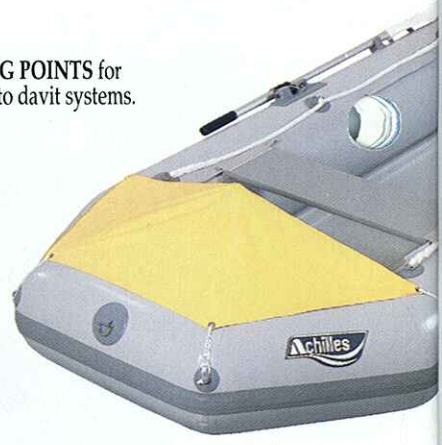

LAYERED DEEP "V" FIBERGLASS HULL & TRANSOM for true rigid hull performance.

DAVIT LIFTING POINTS for adapting easily to davit systems.

REMOVABLE WOOD SEAT AND ACHILLES FOLD-DOWN, LOCKING OAR SYSTEM standard on HB-90 and HB-100 models only.

FULL-LENGTH RUBBING STRAKE to prevent scrapes and abrasions.

HYPALON®-REINFORCED FABRIC TUBES for outstanding strength and durability.

HB-90 standard features include: layered, deep "V" fiberglass hull & transom; roomy, square bow configuration; self-bailer valve; full-length rubbing strake; fold-down, locking oar system with two-piece breakdown aluminum oars & oar holders; towing eye-bolt with painter line; lift & carry handles; life lines; removable wood rowing seat; removable bow spraydodger; large non-corrosive check valves; high-volume foot pump; deluxe maintenance kit.

The best of both worlds! The "Made-in-the-USA" Achilles HB series combines the safety, stability and portability of an inflatable with the performance of a deep "V" rigid hull boat.

Achilles continues to break new ground in hard-bottom inflatable boat technology at our new factory in Washington State, which is dedicated solely to the design, testing and manufacture of rigid hull inflatables. Achilles now produces five exciting HB models, including the HB-90, HB-100 and HB-110 which make sporty tenders for any boat. All Achilles HB boats feature the same Hypalon®-reinforced fabric tubes as our regular inflatables.

HB-90

HB-100

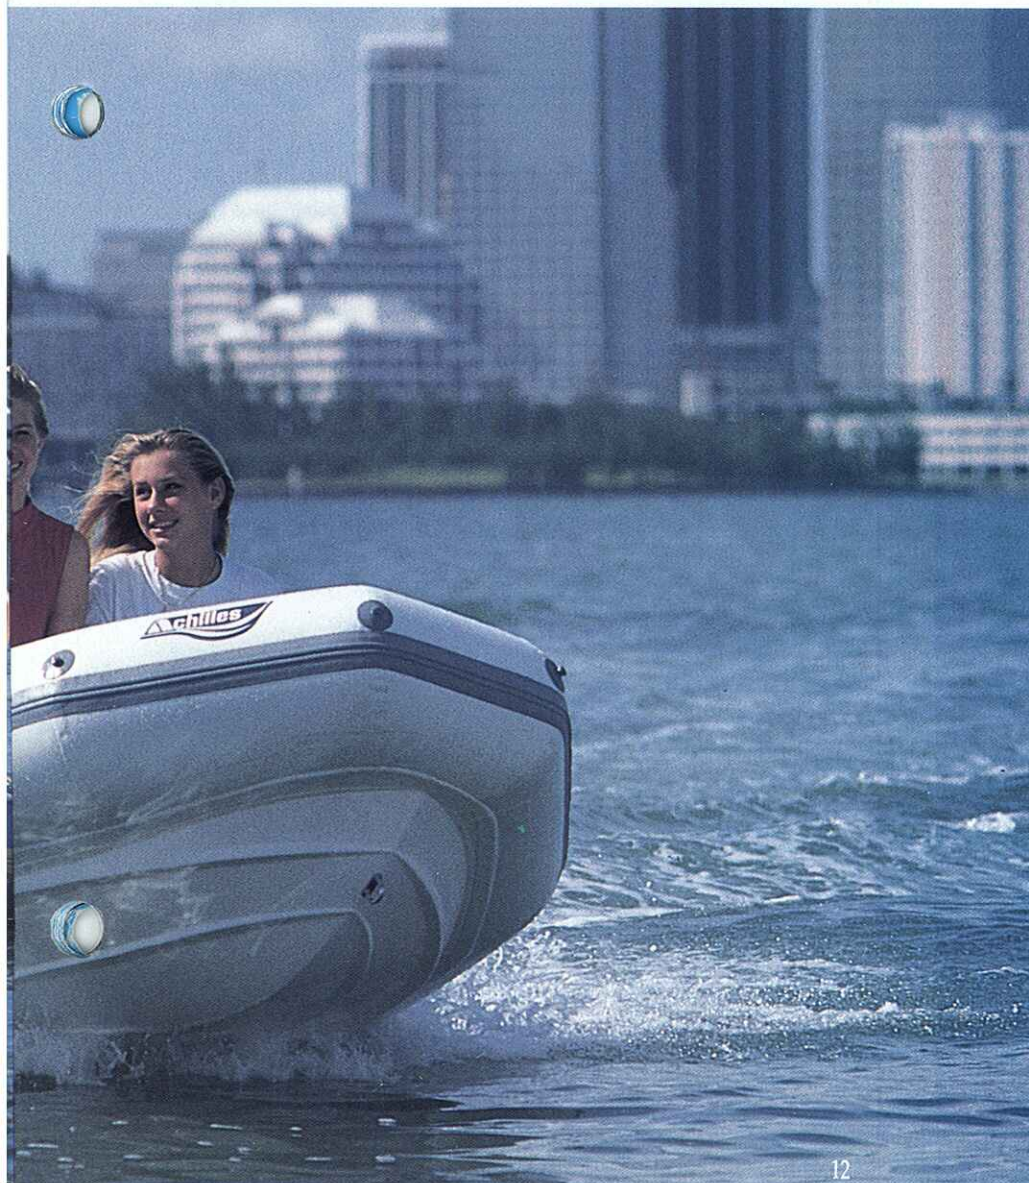

HB-110

HB-100 standard features include: layered, deep "V" fiberglass hull & transom; roomy, square bow configuration; davit lifting points; bailer plug; full-length rubbing strake; fold-down locking oar system with two-piece breakdown aluminum oars & oar holders; towing eye-bolt with painter line; lift & carry handles; lacing cuff with life lines; removable wood rowing seat; removable bow spraydodger; large, non-corrosive check valves; high-volume foot pump; deluxe maintenance kit.

HB-110 standard features include: layered, deep "V" fiberglass hull & transom; roomy, square bow configuration; davit lifting points; bailer plug; full-length rubbing strake; paddle & paddle straps; towing eye-bolt with painter line; lacing cuff with life lines; large, non-corrosive check valves; high-volume foot pump; deluxe maintenance kit.

Seat and steering system shown are options offered by Achilles. See pages 29-30 for the full range of accessories available for Achilles boats.

MADE IN THE USA

HARD BOTTOM (HB) SERIES

HYPALON® - REINFORCED FABRIC that is unsurpassed for air retention as well as durability.

LAYERED DEEP "V" FIBERGLASS HULL AND TRANSOM for outstanding performance and maneuverability.

ROOMY, SQUARE BOW DESIGN for increased interior space without increased length overall.

FULL-LENGTH RUBBING STRAKE for extra protection from collisions with docks, rocks and other boats.

FULL-LENGTH SPLASH GUARD WITH LIFE LINES for dry, safe rides, even at high speeds.

PADDLE AND PADDLE STRAPS are standard for HB-110, HB-124 and HB-140.

The Achilles HB-124 and HB-140 rigid hull models are sensational sportboats as well as terrific tenders for larger boats. Their outstanding performance, combined with their roominess, make them great for waterskiing, diving or just speedboating. Their stability, carrying capacities and fabric tubes (which won't mar other boats) make them unsurpassed tenders. Both are made in the USA and promise to be the class of the rigid hull market in 1992!

HB-124

HB-140

HB-124 Standard features include: layered, deep "V" fiberglass hull & transom; roomy, square bow configuration; davit lifting points; bailer plug; full-length rubbing strake; paddle & paddle straps; towing eye-bolt with painter line; full-length splash guard with life lines; bow deck fitting points; large, non-corrosive check valves; high-volume, large foot pump; deluxe maintenance kit.

HB-140 Standard features include: layered, deep "V" fiberglass hull & transom; roomy, square bow configuration; davit lifting points; bailer plugs; full-length rubbing strake; paddle & paddle straps; towing eye-bolt with painter line; full-length splash guard with life lines; bow deck fitting points; large, non-corrosive check valves; high-volume, large foot pump; deluxe maintenance kit.

Seat and console shown are options offered by Achilles. See pages 29-30 for the full range of accessories available for Achilles boats.

GRAND TENDER (GT) SERIES

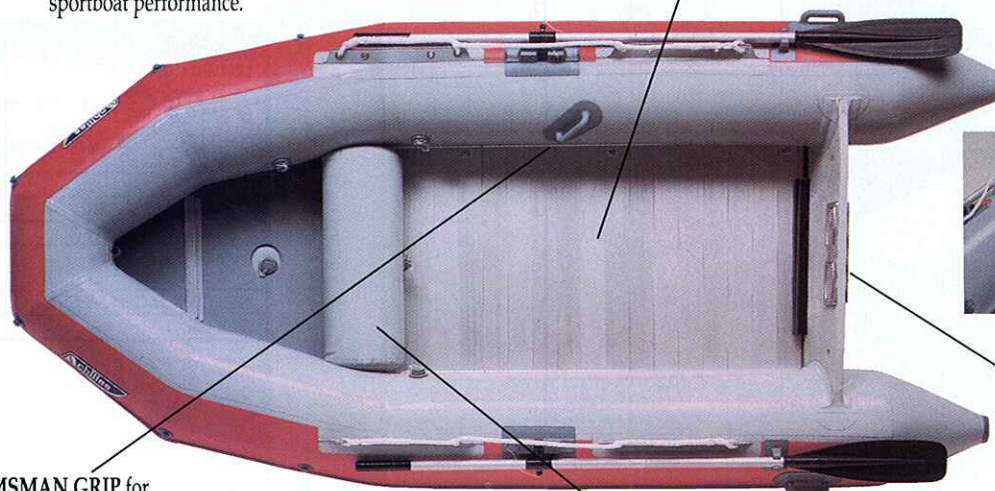

The luxury tender that's much more than a tender! In addition to being roomy, reliable support boats, GT boats are packed with our top sportboat features, like aluminum floorboards, making them as fun as they are practical. So these sport tenders are as exciting as they look with their distinctive red and light grey color combination.

When you compare features with other inflatables this size, you'll see that our GRAND Tenders really live up to their name.

TRIGON AIR KEEL for sportboat performance.

ALUMINUM FLOORBOARDS AND STRINGER SYSTEM for the best floor system on any inflatables this size.

HELMSMAN GRIP for extra safety.

FOLD-DOWN, LOCKING OAR SYSTEM AND INFLATABLE SEAT for comfortable rowing.

FIBERGLASS TRANSOM AND MOTOR PLATE for more transom strength and protection than comparable boats.

oar holders; bow carry handle; lift & carry handles; high-speed helmsman grip; life lines; side-tube lacing cuff/splash guard; removable bow spraydodger; inflatable rowing thwart seat; large, non-corrosive check valves; high-volume foot pump; double-carry bag system; deluxe maintenance kit.

SPORT DINGHY (SPD-AD) SERIES

Our famous Sport Dinghy line continues to improve! For 1992 we've made these popular boats available in light grey and white (4AD only) for the first time. The SPD-4AD and SPD-5AD are the best values in their class with a square bow configuration to allow for more interior space than other inflatables of the same overall length.

Achilles Sports Dinghies have been proven reliable over the years by people whose safety and comfort depend on them. Now they are even better than ever!

FRONT INFLATABLE ROWING SEAT for practical and comfortable rowing.

FIBERGLASS TRANSOM for longlasting transom strength.

FULL-LENGTH RUBBING STRAKE provides protection from scrapes and abrasions.

REMOVABLE BOW SPRAYDODGER keeps gear dry.

SPD-4AD

ALUMINUM STRINGER SYSTEM to firmly secure locking wood floorboards in place.

CARRY HANDLES that make it easy to move inflated boats.

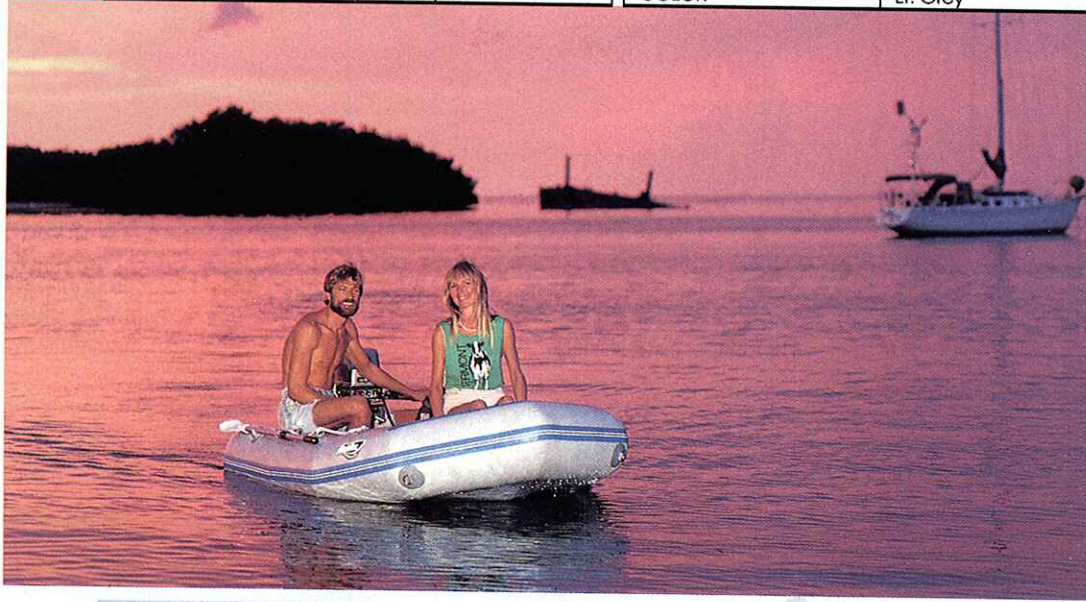

SPD-AD Standard features include: roomy, square bow configurations; air keel; self-locking floorboards with aluminum stringer system; fiberglass transom with protective motor clamp plate; self-bailer valve; full-length rubbing strake; fold-down locking oar system with two-piece breakdown aluminum oars & oar holders; lift & carry handles; bow carry handle; towing bridle; life lines; side-tube lacing cuff/splash guard; removable bow spraydodger; inflatable rowing thwart seat; slide-on wood seat; large, non-corrosive check valves; high-volume foot pump; carry bag; deluxe maintenance kit.

FIRST LINE (FL) SPORT DINGHY SERIES

The brand new FL Series has been developed in response to demands for a more economical boat in the mold of the popular Achilles Sport Dinghies. With our new FL-3 and FL-4 boats, we've kept the quality intact with the same standards of fabric, design and performance all Achilles boats are famous for, while concentrating on the key features that have made our sporty tenders so popular over the years.

FL

	FL-3	FL-4

COLOR	Lt. Grey	Lt. Grey

TOWING BRIDLE to make it easy to tow in the best possible manner.

FULL-LENGTH RUBBING STRAKE for extra protection in collisions with docks and other boats.

FL-4

PLASTIC STRINGER SYSTEM to secure locking wood floorboards in place.

REMOVABLE WOOD ROWING SEAT for convenience and comfort.

FL-3

TWO-PIECE ALUMINUM OARS AND FOLD-DOWN LOCKING OAR SYSTEM for the most functional and convenient rowing system available.

PROTECTIVE MOTOR PLATE protects the wood transom from motor clamps.

FL Standard features include: air keel; self-locking floorboards with plastic stringer system; fixed wood transom with protective motor clamp plate; self-bailer valve; full-length rubbing strake; fold-down locking oar system with two-piece breakdown aluminum oars & oar holders; towing bridle; life lines; slide-on wood rowing seat; large, non-corrosive check valves; high-volume foot pump; carry bag; maintenance kit.

LIGHT SPORT (LS) DINGHY SERIES

FULL-LENGTH WOOD FLOORBOARDS lock into place and are secured with plastic stringers (aluminum stringers for LS-5).

WOOD TRANSOM is protected by aluminum motor plate.

INFLATABLE ROWING THWART for comfort and convenience.

THE ACHILLES FOLD-DOWN OAR SYSTEM and **TWO-PIECE ALUMINUM OARS** lock oars in place and eliminate possibility of losing an oar.

AIR KEEL for better handling

TOWING BRIDLE makes towing easy and efficient.

RUBBING STRAKE provides extra protection from contact with docks and other objects.

Proportionately larger tube diameters make these sport dinghies more compact without sacrificing load capacity. So they're dependable, hard-working tenders for small and medium-sized boats. Their larger tubes and multiple air chambers also make them exceptionally safe, stable boats that families can take anywhere. And their extra stability makes them great for fishing or hunting. This popular line features a new light grey color option for 1992.

If you're looking for a safe, reliable and hard-working boat to use as a tender or family fun boat, look no further!

LS-5

LS-4

LS Standard features include: air keel; self-locking floorboards with plastic stringer system (aluminum stringer system for LS-5); fixed wood transom with protective motor clamp plate; self-bailer valve; full-length rubbing strake; fold-down locking oar system with two-piece breakdown aluminum oars

& oar holders; towing bridle; life lines; inflatable rowing thwart seat; large, non-corrosive check valves; high-volume foot pump; carry bag; maintenance kit.

LIGHT SPORT ROLLUP (LSR) SERIES

Take the great features of our Light Sport boats, add the convenience of a rollup floor and you have our popular LSR series. We've answered the demand for a safe, practical and roomy tender for smaller boats where space is at a premium. We've also created the ideal boat for active families since LSR boats fold flat and fit easily in campers, trailers or even car trunks. These tough, compact models assemble and deflate in minutes and can't be beat for ease in storing or transporting.

If you're looking for a roomy, practical tender for your smaller power or sailboat, or for a safe family fun boat that goes anywhere easily, the LSR is for you!

LSR

SQUARE BOW DESIGN to maximize interior space.

FIXED WOOD ROWING SEAT for rowing convenience.

FOLD-DOWN, LOCKING OAR SYSTEM and OARS provides the industry's most practical rowing arrangement.

WOOD TRANSOM with MOTOR PLATE to solidly support motors and protect transom.

ROLLUP FLOOR provides the ultimate in storing, carrying and assembling convenience.

FULL-LENGTH, NO MAR RUBBING STRAKE prevents damage to or from other boats.

LSR-4

LSR Standard features include: rollup wood floor; wood transom with protective motor clamp plate; self-bailing valve; full-length rubbing strake; fold-down locking oar system with two-piece breakdown aluminum oars & oar holders; bow carry handle; life lines; fixed wood rowing seat; large, non-corrosive check valves; high-volume foot pump; carry bag; maintenance kit.

LIGHT SPORT AIR FLOOR (LSA) SERIES

The New LSA-4 is a truly portable version of our popular LS Series. It is designed for those who want a safe comfortable boat which requires a minimum of storage space and transports as easily as possible. With its inflatable floor, this sturdy, 4-person boat meets those requirements, making it perfect for RV, camper and trailer owners, as well as owners of smaller boats.

This practical boat is made with a roomy bow configuration and has the same durable Hypalon®-reinforced fabric as our other boats. It offers all the same great features as other LS boats, but its inflatable floor makes it even easier to carry, assemble, transport or store virtually anywhere.

LSA

LSA-4

FIXED WOOD ROWING SEAT
positioned for easy rowing.

FOLD-DOWN, LOCKING OAR SYSTEM with TWO-PIECE ALUMINUM OARS keeps oars secured and out-of-the-way when not being used.

PROTECTIVE MOTOR PLATE protects the wood transom from motor clamps.

BOW CARRY HANDLE makes it easy to carry when assembled.

LSA-4

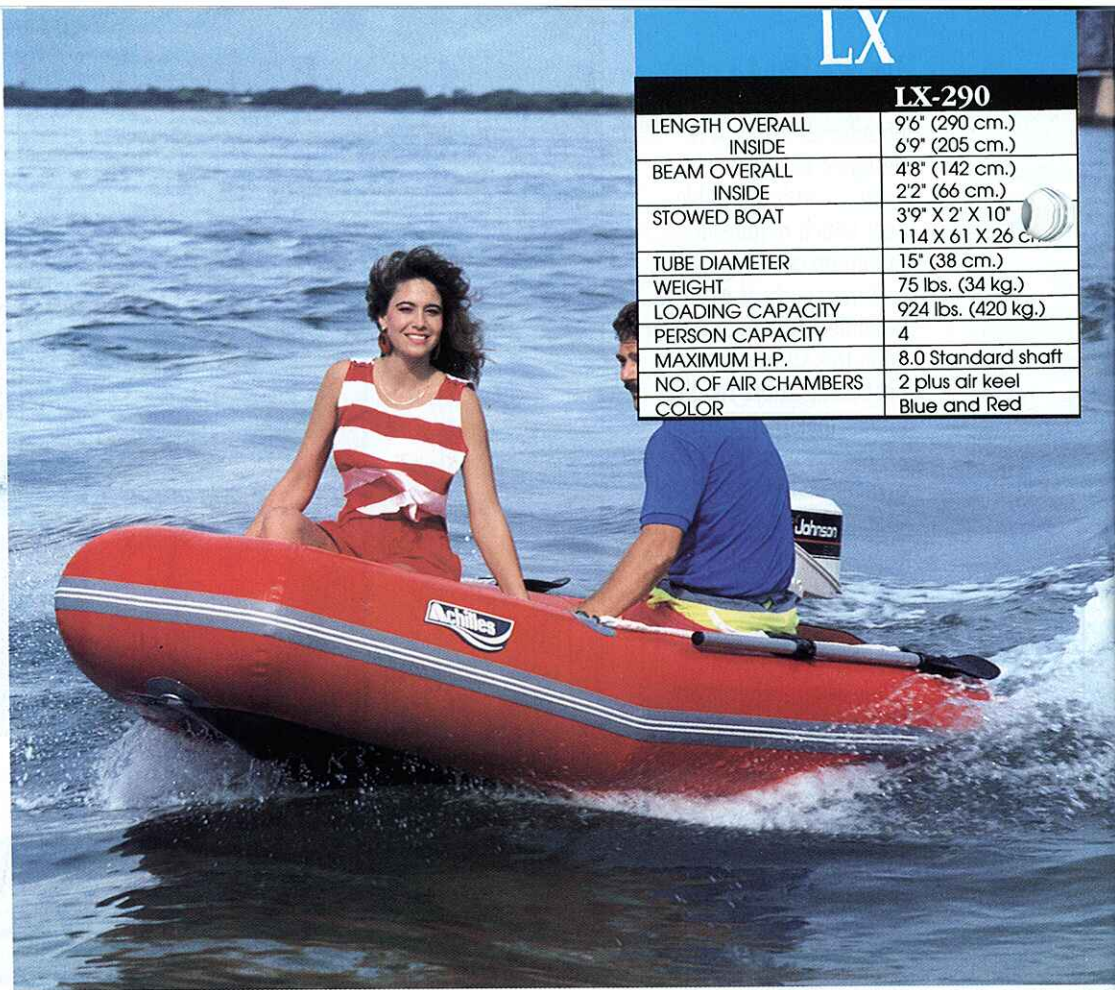

INFLATABLE FLOOR provides exceptional storage convenience.

LSA Standard features include: removable inflatable floor, wood transom with protective motor clamp plate; self-bailer valve; rubbing strake; fold-down locking oar system with two-piece breakdown aluminum oars & oar holders; bow carry handle; life lines; fixed wood rowing seat; large, non-corrosive check valves; high-volume foot pump; carry bag; maintenance kit.

LIGHT EXTRA (LX) SPORT SERIES

All the quality and most of the features of the popular Light Sport (LS) series have been incorporated into this brand new, economical derivation of the line. In addition to Hypalon-reinforced fabric, it features the same basic square bow design, including air keel and floorboards, as LS boats.

A great value for those seeking a practical value in an inflatable for 1992.

FIXED WOOD TRANSOM protected by an aluminum motor clamp plate.

INFLATABLE AIR KEEL for a more rigid floor and better handling.

SELF-LOCKING WOOD FLOORBOARDS with **PLASTIC STRINGER SYSTEM** for a dependable floor.

ACHILLES FOLD-DOWN, LOCKING OAR SYSTEM and **TWO-PIECE OARS** make rowing as simple as possible.

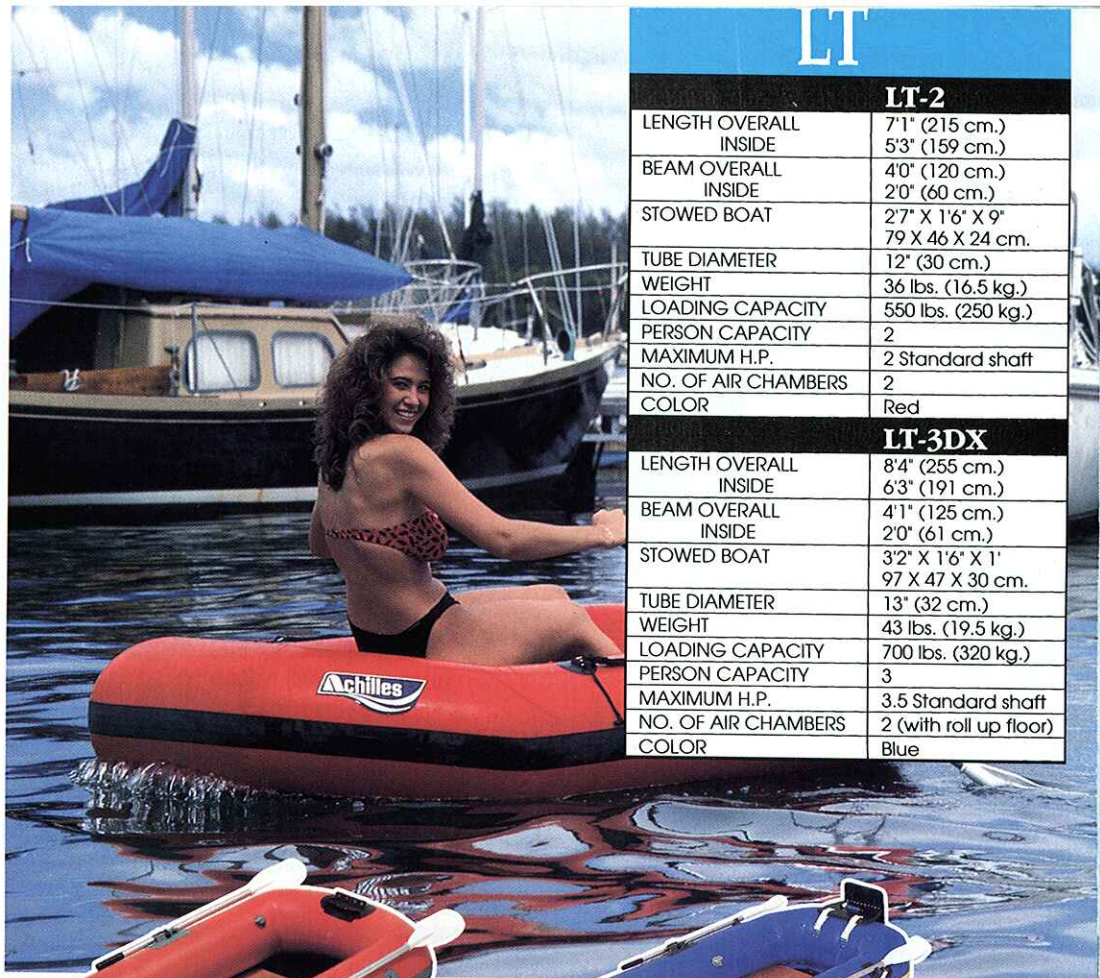

LX-290

(NEW) LX-290 Standard features include: air keel; self-locking floorboards with plastic stringer system; fixed wood transom with protective motor clamp plate; self-bailer valve; full-length rubbing strake; fold-down locking oar system with two-piece breakdown aluminum oars & oar tie-downs; life lines with hand loops; fixed wood rowing seat; large, non-corrosive check valves; high-volume foot pump; carry bag; maintenance kit.

HIGHT TENDER (LT) SERIES

Our LT-3DX answers the demand for economy and convenience in a tender that still provides peace-of-mind. Built tough with the same demanding safety requirements of all Achilles boats, this sturdy dinghy offers the convenience of a rollup, wood floor with the durability of a tough, Hypalon - reinforced fabric. Our smallest and most economical model, the LT-2, with fold-up wood floorboards, has the same tough fabric and offers the same limited, five-year warranty as all Achilles boats. Proof that we take quality seriously in all our boats.

Lightweight wonders that store virtually anywhere without sacrificing anything in terms of safety - LT boats are the best value you'll find in an economical dinghy.

LT-2

LT-3DX

BOW CARRY HANDLE for easy carrying of inflated boat.

HINGED WOOD FLOOR that folds up easily.

FIXED WOOD ROWING SEAT for comfortable rowing.

TWO "D" RING TOWING BRIDLES for easy, smooth towing.

FULL-LENGTH RUBBING STRAKE for extra protection.

FOLD-DOWN, LOCKING OAR SYSTEM AND TWO-PIECE ALUMINUM OARS make rowing a cinch.

ROLLUP WOOD FLOOR for convenient set-up and storage.

Optional Motor Mount for LT-2

MOTOR MOUNT for affixing outboard motor.

LT-2 Standard features include: fold-up wood floor; full-length rubbing strake; fold-down locking oar system with two-piece breakdown aluminum oars; bow carry handle; life lines; fixed wood rowing seat; large, non-corrosive check valves; high-volume foot pump; carry bag; maintenance kit.

LT-3DX Standard features include: rollup wood floor; motor mount; full-length rubbing strake; fold-down locking oar system with two-piece breakdown aluminum oars & oar holders; towing bridle; life lines; fixed wood rowing seat; large, non-corrosive check valves; high-volume foot pump; carry bag; maintenance kit.

SPORT UTILITY (SU) BOATS

TRIGON AIR KEEL for excellent handling.

NON-SLIP ALUMINUM FLOORBOARDS
for sure-footed safety under rough conditions.

wood seat shown is optional

HEAVY-DUTY, REINFORCEMENT
CARGO PATCH all around the boat for extra
protection.

SU boats are built tough to work hard for rugged private and commercial use. They are made with an additional heavy-duty layer of 840-denier nylon fabric in a two-ply technique which results in a core fabric even stronger than a single base fabric of equal thickness. A number of exclusive features are built into these boats which combine to bring the advantages of an inflatable together with the demands of tough commercial marine use.

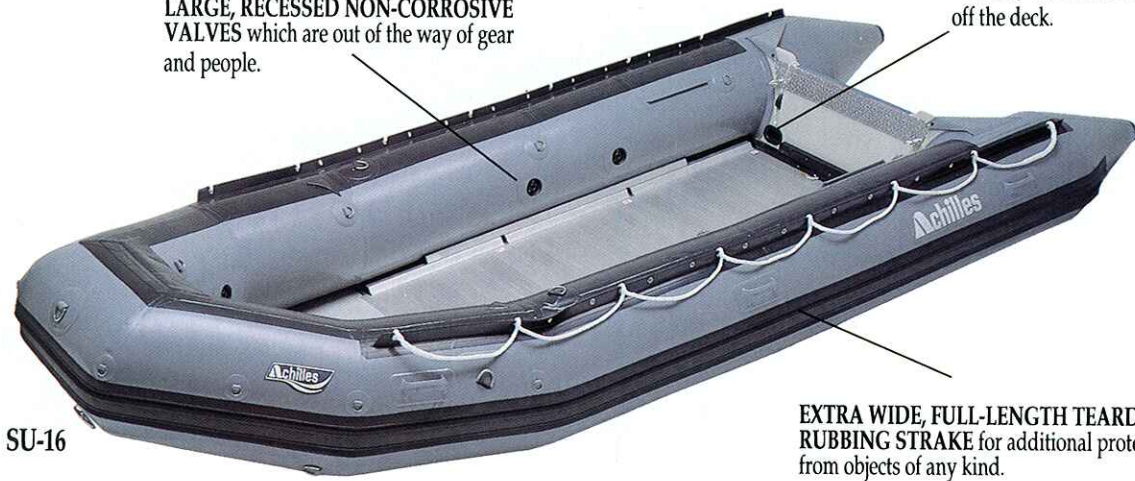

If your needs run to commercial or rugged personal use, choose the boats selected by commercial users and marine research groups the world over for their strength, durability and reliability.

LARGE, RECESSED NON-CORROSIVE VALVES which are out of the way of gear and people.

LARGE, SELF BAILER to keep water off the deck.

SU-16

EXTRA WIDE, FULL-LENGTH TEARDROP RUBBING STRAKE for additional protection from objects of any kind.

Standard features include: roomier bow configuration; toughest double (840 denier each) nylon core fabric; trigon air keel; aluminum self-locking floorboards & stringers system; fiberglass transom with aluminum plate (exterior) & motor pad (interior); fuel tank tie-down; large self-bailer (duck bill type); extra-wide, heavy-duty, full-length teardrop rubbing strake, tie-down straps for paddles; bow carry handle; towing bridle; lift & carry handles; splash guard with life lines; heavy-duty reinforcement cargo wear patch all around; extra tie-down D-rings; large non-corrosive recessed valves; two (2) high-volume large foot pumps; deluxe maintenance kits.

RIVERBOATS

Achilles also produces a complete line of advanced riverboats with models for professional outfitters, serious river runners and recreational boaters. All loaded with features designed to help you get the most out of any whitewater experience, including a new self-bailing series with a lace-in inflatable floor. Call or write for the Achilles Riverboat catalog.

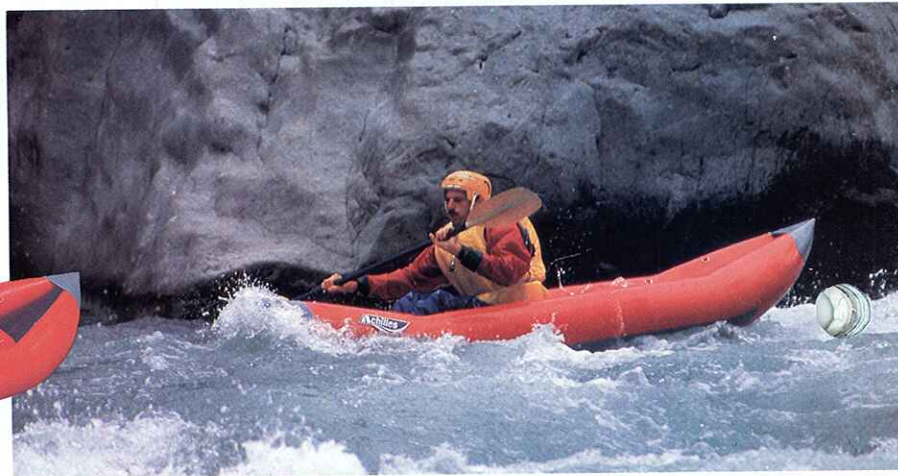

FOUL WEATHER GEAR

Good news for bad weather! Our growing line of stylish and technically advanced foul weather gear has more great products to choose from than ever before! All providing 100% waterproof protection and made with the latest fabric innovations, including a Hypalon® -reinforced fabric! Choose from traditional foul weather suits with chest-high trousers in both regular and lightweight versions, or new lightweight suits with waist-high pants for more comfortable protection. Also available are colorful all-weather jackets which look great anywhere! Call or write for the Achilles foul weather catalog.

INFLATABLE KAYAKS

The most fun you'll ever have in whitewater! Achilles' new two-man inflatable kayaks make it easy to get into whitewater boating or calm water paddle sports. Stable, maneuverable and forgiving, Achilles kayaks can handle challenging rapid, waves or holes. Made with Hypalon® for durability and a removable inflatable floor for comfort and extra buoyancy, they are lightweight and compact enough to be easily backpacked . . . STAINLESS STEEL BENCH SEAT (ACH 800W)

STAINLESS STEEL COLLAPSIBLE BOW RAIL provides extra safety and convenient fitting points for HB-140 boats (ACH 710)

UNIVERSAL AFT SPOILER (ACH 610)

HB STAINLESS STEEL AFT SPOILER custom-designed for HB-140 is ideal for mounting lights, antennas, etc. (ACH 615)

FIBERGLASS STANDUP CONSOLE with FORWARD SEAT (ACH 650W)

FORWARD SEAT REPLACEMENT CUSHION (ACH 950)

One-year limited warranty on all Achilles parts and accessories.

The specifications of Achilles boats, equipment and accessories may change without notice.

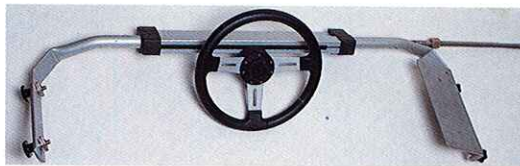

A high quality Achilles steering system is a natural upgrade from tiller steering and makes it easier to control your boat.

FIBERGLASS STANDUP CONSOLE WITH FORWARD SEAT, windscreen and stainless steel grab rail. (ACH 650W for HB-140 and 14' or larger sportboats) REPLACEMENT SEAT CUSHION FOR FORWARD SEAT (ACH 950)

STAINLESS STEEL FLOOR MOUNT pedestal steering system provides steering without restricting access about boat. (ACH 450 for boats 14' and under)

CROSS BAR STEERING SYSTEM goes well with removable seating in Achilles sportboats and larger tenders. (SS12208/09/10)

ACCESSORIES

Select the accessories to complete your Achilles boat.

BELOW SEAT HOLDALL keeps gear safe, dry and out of the way. (E735)

BOW HOLDALL attaches to bow "D" Rings to keep gear dry and secure. (SC138)

FISHING POLE HOLDER quickly secures and releases poles. (C417/418/419)

PENCIL PRESSURE GAUGE monitors air pressure in tubes to help maintain optimum level of inflation. (E132)

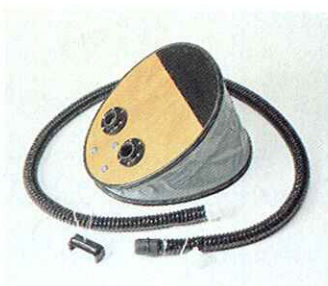

LAUNCHING WHEELS make launching a breeze virtually anywhere. (SC131/132)

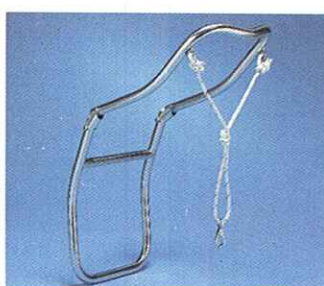

BOAT COVER protects your inflatable from the elements. (ISG/IFS Boat Length)

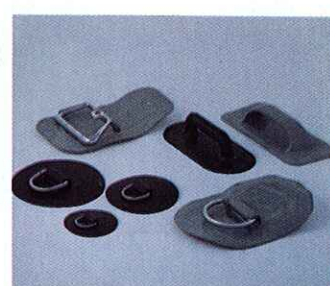

UNIVERSAL STAINLESS STEEL AFT SPOILER for mounting lights, antennas, etc. (ACH 610 for boats 14' or larger)

HIGH VOLUME LARGE FOOT PUMP inflates boats faster than smaller pumps. (C511)

STAINLESS STEEL FOLDING LADDER provides easy access from water and stores easily. (ACH100)

"D" RINGS, BOW RINGS and SAFETY/LIFT HANDLES help customize your boat to meet your specific needs. (D-Rings C411-414; Handle C421/422; Bow Handle C423)

ROLL CONTROL DIVERS TANK RACK keeps dive tanks secure in boat. (ACH310)
