

**What you put into
your Achilles is why we
make them so strong.**

Riverboats

Achilles Riverboats™

From Alaska's great untamed glacial rivers to the currents of your favorite local whitewater, Achilles riverboats give you performance and reliability.

Achilles is America's toughest boat, now 20% lighter in weight!

What you put into your Achilles riverboat is why they are made so strong. We manufacture the material that is used in your boat. This means unsurpassed safety for you and your rafting companions. Exacting quality control—it's the primary reason Achilles is the largest inflatable supplier in the U.S. and first in quality.

Achilles makes your riverboat more puncture and abrasion resistant—two very critical elements for a safe,

enjoyable whitewater experience. And each Achilles contains the highest (80%) content of DuPont Hypalon, a synthetic rubber material that makes your riverboat tougher and more durable.

More good news.

Your Achilles is now 20% lighter in weight for easier handling. It's also stronger. All floors are 1260d with the floor on the RV and RS models wrapped to the rubbing strip. You won't find a tougher riverboat.

Achilles. It's the respected choice of professional outfitters and serious river runners because it reflects the world's most advanced inflatable boat technology.

That's why it should be your choice too.

with the boater in mind™

RV Series designed for the professional

Here is the strongest riverboat available for big water professional use. The tubes are 840d and the 1260d floor is fully wrapped. The two thwarts are lace in and all models have stronger D-Rings on key positions. And now they are 20% lighter in weight—good news for tired muscles at the end of a long day on the river! Achilles. It's the most reliable riverboat in the world designed for the white water professional.

	Length	Width	Tube Dia.	Weight
RV-110	11'0"	5'2"	16.0"	90 lbs
RV-126	12'6"	6'1"	18.0"	100 lbs
RV-140	14'0"	6'8"	20.0"	140 lbs
RV-156	15'6"	7'1"	22.0"	160 lbs
RV-180	18'0"	8'0"	24.0"	215 lbs

RS Series for the whitewater enthusiast

A tough, reliable riverboat designed for private use, this series has many of the features of the heavy-duty professional boats. Strong 1260d flooring, tough nylon fabric coated in 80% DuPont Hypalon, multiple air chambers in a compartmentalized hull. It has superior resistance to abrasion, sunlight, and general weathering.

Sophisticated design, very strong and now 20% lighter in weight!

	Length	Width	Tube Dia.	Weight
RS-110	11'0"	5'2"	16.0"	66 lbs
RS-126	12'6"	6'1"	18.0"	80 lbs
RS-140	14'0"	6'8"	20.0"	100 lbs
RS-156	15'6"	7'1"	22.0"	130 lbs

RC Series for the recreational boater

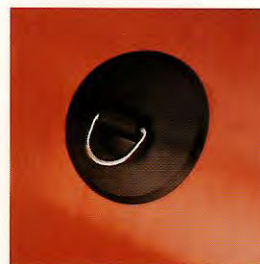

There's nothing like a leisurely float down a favorite river, drifting for fish; enjoying conversation with friends; or just lazing away an afternoon and enjoying the natural beauty of your favorite wilderness area. There's no doubt it can all be done much better in an Achilles RC Series riverboat. Tough and durable, this colorful new series is waiting for its first trip with you.

	Length	Width	Tube Dia.	Weight
RC-110	11'0"	5'2"	16.0"	50 lbs
RC-126	12'6"	6'1"	18.0"	68 lbs
RC-140	14'0"	6'8"	20.0"	90 lbs

Floor safety patches add double floor protection to potential abrasion areas.

Strengthened "D" rings on all stress points and tie-downs. Sizes available: 80mm, 50mm, 35mm and 25mm.

What you put into your Achilles is why we make them so strong.
